DIRECTORS NOTES

"If you don't feel inspired to wanna dance, cheer or even rip your clothes off then I haven't don't the job right!"

Growing up in Australia I experienced loads of racism and discrimination and at a young age assimilated to feel safe. On top of that, I grew up always being told by and/or overhearing doctors using words to negatively describe me as fat, obese, unhealthy and overweight. 20 years later, this discrimination further bleeds into my professional life I was turned down for roles or by casting agents because they already had 'one brown girl' or 'voluptuous' girl on the books. 30 years on this lack of representation and experience of "otherness" still exists only this time there's a solid body positive movement stampeding ahead and YES, It may be trending but we are here to take it to the next level!

But Demon, "you've already done this event before, why do it again?" (said by stupid white Cishet funding bodies), BECAUSE WE NEED MORE THAN 1 FAT EVENT TO DISMANTLE THE SYSTEM! It's time to lead by example, to educate, get uncomfortable, learn and show collective care.

FUCK BODY TERRORISM, FUCK UNREALISTIC BEAUTY STANDARDS, FUCK THE PATRIARCHY, FUCK FATPHOBIA, FUCK RACISM, FUCK DISCRIMINATION, FUCK ABELISM and Hellooo beautiful liberated bodies!

Big Booty Love,
Demon Derriere

P.S. Fat is now a bad word.
